

The UCL Institute for Disaster and Risk Reduction, Institute for Global Health and the Human Security Centre present:
The Space and Health Series

The [UCL Institute for Disaster and Risk Reduction](#), [Institute for Global Health](#) and the [Human Security Centre](#) are teaming up to present an online events series focusing on the importance of the role of space in the medical sector. With contributions and discussion with a wide array of actors from the medical, human space flight, telecommunications, defence and humanitarian fields, this series will explore the latest developments in prolonged field care and telemedicine and how they can contribute to saving and improving lives on Earth and beyond.
